

Yokohama Tire Corporation is initiating a voluntary recall of certain tires manufactured in The West Point, MS plant in May and June 2022. These tires may have been manufactured with an out-of-specification tread base compound. There is potential for a portion of the tread to separate from the casing of the tire increasing the risk of a crash. Yokohama will replace the subject tires at no charge to consumers.

1. **What tires are subject to this recall: "Eligible Tires"?**

4. **How do I handle dual assembly tire replacements?**

5. **How do I process the removed tires for warranty reimbursement?**

Submit the eligible removed tires under the Yokohama standard limited warranty procedures and state, "Tread Base Compound Recall" on the *Standard Warranty Claim Form* as the reason for removal. Additional *Standard Warranty Claim Forms* can be requested by e-mail at marketingmaterials@yokohamatire.com.

Affix corresponding tire identification stickers to the tread portion of claim tires. For example, the sticker numbered G12345-1 would be placed on the tire listed as line item #1 on claim form number G12345. Sticker number G12345-2 would be placed on the tire listed as line item #2, and so on.

For new tires remove the new tire tread label prior to shipping.

White copy of the *Standard Warranty Claim Form* is to be placed in an envelope and secured to the tire(s) Tires may be shipped with other warranty submissions or separately using the normal warranty return procedure. Alternate shipping can be arranged by contacting the recall campaign call center (contact info below).

If eligible tire(s) are confirmed by Yokohama, free replacement credit will be granted for identical (or substantially similar Yokohama part at Yokohama's discretion). Tread depth proration credit will be granted if non-Yokohama brand tires are installed.
